A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. All construction must be completed within 6 months from issuance of permit. All permits require final inspection.

A certificate of occupancy must be issued before any building is occupied.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

Residential Accessory Structures

What is an Accessory Building or Use? Accessory building or use is one which:
(a) is subordinate to and serves a principal building or principal use; and (b) is subordinate in area, extent, of purpose to the principal building or principal use served; and (c) contributes to the comfort, convenience and necessity of occupants of the principal building or principal use served; and (d) is located on the same building lot as the principal use served.

What are the requirements for an Accessory Structure?

Height: No accessory building shall exceed 2 ½ stories in height, nor shall it be greater in height than the main structure.

Single Family Dwelling Districts:

Front Yard: Attached accessory buildings, including garages and carports, shall have a front yard not less than the main building, or as specified in the particular district.

Detached accessory buildings shall be located in the area defined as the side yard or rear yard.

Side Yard: There shall be a side yard not less than fifteen (15) feet from any side lot line, alley line, or easement line, except that adjacent to a side street, the side yard shall never be less than sixty (60) feet.

Rear Yard: There shall be a rear yard not less than twenty percent (20%) of the depth of the lot. Carports, garages, or other accessory buildings located within the rear portion of a lot, as heretofore described, shall not be located closer than fifteen (15) feet to the main building.

Lot Coverage: The main structure and all accessory structures shall not occupy more than twenty percent (20%) of the lot area.

When is a permit needed? A permit and plan review is required for all Accessory Structure. A permit fee based on the valuation of construction cost of the Accessory Structure is due upon permit issuance.

**** Submittal documents:** Fill out a Residential permit application and submit (2) site plans which include the following: (You may use a copy of a survey of your lot and draw the above requirements.)

1. Location of main building on lot and all other structures on property.
2. Location of proposed accessory structure on lot.
3. Distance from accessory structure to main building and other structures on property.
4. Distance from accessory structure to side and rear lot lines.
5. All streets and alleys.
6. Foundation plans and/or means of support. (All portable buildings must be tied down regardless of size.)
7. Electrical and plumbing plans, if applicable.
8. Roof details (if not a prefabricated storage building).

**** MUST HAVE ALL DOCUMENTS TURNED IN WITH APPLICATION**
